PREFACE

This publication provides supplementary information to the printed main estimates of the Manitoba Department of Agriculture and Food. We especially hope that this document will provide Members of the Manitoba Legislative Assembly with meaningful background information on the Department's proposed spending budget. Further, we also hope that this publication will give general readers a broader insight into our Department and its programs.

There are several major sections within the following pages. The first section provides an overview of the Manitoba Department of Agriculture and Food's 2001/2002 budget requirements. The second section identifies program and financial information including our staff requirements and expenditures. Our program and financial information is organized under main appropriations for ready cross-referencing to the printed main estimates. A five-year historical budget comparison of the Department's total expenditures and a standard glossary of terms are also provided near the end of this document.

We want this publication to help the reader gain a deeper awareness of Manitoba Department of Agriculture and Food's major programs and corresponding allocation of resources. We also encourage the reader to explore our Department through our Home Page at www.gov.mb.ca/agriculture/.

Honourable Rosann Wowchuk
Minister of Agriculture and Food

PART 1

DEPARTMENTAL OVERVIEW

DEPARTMENT OF AGRICULTURE AND FOOD

MINISTER

Honourable Rosann Wowchuk

DEPUTY MINISTER

Don Zasada

HISTORICAL BACKGROUND

The historic development of Agriculture and Food as a department of the Government of Manitoba can be divided into six distinctive periods:

1. The Initial Period – 1871-1874 – joint portfolio with Public Works and Agriculture; 1875-1876 – appointment of separate Ministers for Agriculture and Public Works; 1877-1882 – organized and designated as the Department of Agriculture and Statistics.
2. The Second Period – 1883-1889 – the Department of Agriculture, Statistics and Health.
3. The Third Period – 1890-1959 – the Department of Agriculture and Immigration.
4. The Fourth Period – 1960-1967 – the Department of Agriculture and Conservation.
5. The Fifth Period – 1967-1999 – named the Department of Agriculture operating under the Department of Agriculture Act.
6. The Sixth Period – 1999-Present – the Department of Agriculture and Food.

Throughout its history the Department has been organized and managed to address the changing challenges and opportunities facing the agri-food industry – in an effective, efficient, and economic manner.

OVERALL RESPONSIBILITIES

Mission and Role

The Department's mission and role statements support the provincial government's commitment to improve the quality of life of all Manitobans. Manitoba Agriculture and Food is committed to the overall provincial strategic priorities of community and economic development, sustainable development and fiscal responsibility.

The mission statement defines the common goal of the Department and its staff. The role statement defines how our organization will achieve its mission.

Mission

We are dedicated to creating a supportive environment that advances the greater prosperity and stability of our farm families, other agriculture and food partners, and rural communities.

Role

Within a sustainable agriculture framework we provide leadership and a range of information, programs and services in support of our mission.

Vision

The Department's vision statement provides an overview of a desired and achievable state of the province's agriculture and food industry – and ourselves as an organization – by the Year 2010. The vision goals listed below state what this Department will strive to achieve while working with our farming and industry partners.

- Our farm families, agriculture and food partners and rural communities will achieve a higher quality of life by becoming more prosperous and economically stable.
- Manitoba's agriculture and food sector will be more profitable and competitive through expanded diversification and adding value, a growing livestock sector, and greater market orientation – all within a sustainable agriculture framework.
- Our rural communities will be more healthy and dynamic through expanded local economic and employment opportunities, based on a growing agriculture and food sector.
- Our Department will be the leading-edge provider of unbiased technical and up-to-date information to our clients.

Manitoba Agriculture and Food released its new vision document, *Destination 2010*, in January 2001. This document is the result of a lengthy consultative process throughout which staff worked closely with the Honourable Rosann Wowchuk, Minister of Manitoba Agriculture and Food.

Seven task teams of Department staff met with a cross-section of our partners in industry and on the farm. These partners spoke about the challenges and opportunities facing Manitoba's agriculture and food sector during this decade. They also re-confirmed that Manitoba Agriculture and Food must work closely with the industry to maximize this province's economic strengths and natural advantages in support of healthy rural communities.

The Department was encouraged by the high level of participation of people who have a stake in the future of the province's agriculture and food industry. The seven task teams met with 178 of Manitoba Agriculture and Food's partners during discussion forums held from March to early May of 2000. Staff heard from 105 family farm members and 73 other stakeholder partners. A total of 106 organizations were represented at these discussion forums held across Manitoba.

Philosophy and Values

The Department's philosophy and values are based on a fundamental caring commitment to people — our clients and our employees. This caring commitment as found in the following statements has stood the test of time. These statements define who we are and our attitude towards others.

The People We Serve — Our Foremost Priority

The people we serve is why our Department exists.

We work together as a team with our clients to advance our province's agriculture and food industry.

The people we serve range from farm families, food processors, consumers, and Cabinet, to other government departments and to our fellow employees.

Our Best Job Performance

We, as employees, are committed to giving our best job performance every day with pride and professionalism.

We Are One Organization

We all share a commitment to our Department, a greater whole, that takes precedence over any of its parts.

Similarly, we all share a greater commitment to the Government of Manitoba and its priorities.

At all employee levels we strive to understand our roles within our Department's overall mission, goals, beliefs and values.

We Are Public Trustees

We are entrusted with managing funds and other resources owned by the public we serve.

At all employee levels we are committed to ensuring that we make the most effective and efficient use of the public resources entrusted to our care.

Within our organization's philosophy and values the primary statement we adhere to is our commitment to **"The People We Serve – Our Foremost Priority"**. In effect, this client-focused commitment serves as the foundation that our other beliefs are built upon. Throughout the decades Manitoba Agriculture and Food's strategic priorities have undergone considerable change. But our primary commitment has essentially remained the same – and no doubt will continue to remain so in the long-term future.

Organization Chart

The organization chart within this document is primarily made up of the Department's four operating Divisions and two affiliated Crown Corporations. A description of the role and responsibilities for each of these organizational units is included later in this document.

**STATUTORY RESPONSIBILITIES OF THE
MINISTER OF AGRICULTURE AND FOOD**

EXECUTIVE SUPPORT – 1B

Objective

- To provide leadership in ensuring that the department's mission, goals, objectives, and priorities are communicated and effectively carried out.

Activity Identification

- Advise Minister on strategic and program options regarding the application of government and Ministerial policies and priorities.
- Lead and coordinate decision-making process in the development, implementation, operation, monitoring and evaluation of department's policies and programs.
- Ensure full management participation in the planning and resource allocation process.

Expected Results

- The department's submitted estimates, through its proposed allocation of financial, physical, and human resources, should reflect the government's policies and priorities.
- The department's services and activities should be delivered equitably, economically, efficiently, and effectively.

FINANCIAL AND ADMINISTRATIVE SERVICES – 1C

Objective

- ° To plan, administer and ensure effective implementation and adherence to the varied central and departmental policies, goals, programs and activities.
- ° To provide improved financial and administrative services to operational units and support enhanced management accountability within the department, associated corporations and special operating agency.

Activity Identification

- ° Process payment documents, adjusting and closing entries.
- ° Process and report revenue transactions, adjusting and closing entries.
- ° Process requisitions for office supplies, advertising, office equipment, printing and telecommunications.
- ° Coordinate the departmental vehicle fleet by assessing branch requirements.
- ° Compile, analyze, develop internal/external reports and make recommendations concerning: expenditure and revenue estimates, capital supply estimates, the financial components of the Annual Report, and quarterly cash flows.
- ° Provide cash management support which includes coordinating cost centre and internal order development as well as the requirement for fund transfers.
- ° Provide management information and program related systems and financial analysis for the department, Treasury Board and Cabinet.
- ° Prepare and analyze financial statements and act as a management, administrative, financial and program resource.
- ° Assist in the administrative coordination and evaluation process of federal-provincial agreements and activities.
- ° Assist Manitoba Agriculture and Food in preparing a comprehensive business plan to incorporate such elements as goals, lines of business, and program performance measurement.

- ° Provide the administrative coordination of the Freedom of Information and Protection of Privacy Act activities.
- ° Provide training, support and best practice advice and counsel to SAP end users and managers.
- ° Develop and coordinate Annual Report.
- ° Coordinate Records Management activities.
- ° Coordinate accommodation activity for the department.
- ° Coordinate parking activity for the department.
- ° Coordinate asset management in the department.
- ° Audit of branch/region on SAP processing.

Expected Results

- ° Ensure that the approximately 5,000 SAP payments per year are processed within the required turnaround time while maintaining an error rate of less than 1%.
- ° Process revenue transactions on a daily basis amounting to 800 per year.
- ° Ensure branches have the required government vehicles to meet their needs.
- ° Compile annual estimates, quarterly cash flows, and capital supply estimates, and prepare financial component of the Annual Report.
- ° Develop a system to monitor cash management activities.
- ° Provide management, financial, program and related systems research and analysis for the department, Cabinet and Treasury Board.
- ° Prepare and analyze financial statements as required.
- ° Monitor and coordinate the departmental development process related to future Canada-Manitoba Agreements.
- ° Monitor and ensure that the provisions of the Freedom of Information and Protection of Privacy Act are adhered to and advise Access Officers of issues, as well as process applications within the prescribed time frames.

- Monitor and coordinate records management activities in the department, including a specific review of Soils and Crops Branch, by ensuring staff are trained and knowledgeable; and have the appropriate records schedules in place for the timely movement of records to storage and destruction centres.
- Support and train SAP end users by providing access to training coordinators communication support.
- Monitor and coordinate accommodation activity in the department (121 locations) on an ongoing basis to ensure branches have adequate and useable space, and determine cost savings wherever possible.
- Monitor and coordinate 251 parking spots to ensure parking guidelines are adhered to and payments are made and processed in a timely manner.
- Seek to ensure a comprehensive system of business planning that includes a method for assessing progress towards goals within the framework of Manitoba Measures.
- Monitor and maintain inventory of departmental assets.

INFORMATION TECHNOLOGY SERVICES – 1D

Objective

- To provide information technology leadership, management and support to ensure effective delivery of the department's programs and activities.

Activity Identification

- Develop immediate and long-term strategies for the department's information technology direction in response to business needs and organization objectives.
- Maintain, enhance and develop information system initiatives within the department and its associated Crown corporations.
- Enhance the use of technology within the department through consultation, evaluation and recommendation of new technologies.

Expected Results

- Implement effective access to available spatially referenced data for all department staff.
- Develop a custom laboratory management system for use in the Veterinary Laboratory.
- Develop a web-based research project tracking system for the manure industry.
- Maintain and enhance the department's livestock systems.

HUMAN RESOURCE MANAGEMENT SERVICES -- 1E

Objective

- ° To provide for the development, implementation and administration of the departmental human resource program.

Activity Identification

- ° Provide for ongoing management training to meet the updated needs of the department, including the Manitoba Agricultural Credit Corporation (MACC), the Food Development Centre and the Consolidated Unit.
- ° Staff vacant positions within the department and the Consolidated Unit under delegated authority, including MACC and the Food Development Centre.
- ° Coordinate and develop staff training programs for Manitoba Agriculture and Food, MACC, Manitoba Intergovernmental Affairs and Food Development Centre.
- ° Develop and administer the department's wage and salary (classification) system, including corporations.
- ° Facilitate the implementation of the department's Employment Equity Plan and French Language Services Plan including monitoring their related progress and results.
- ° Provide assistance to management on labour relations issues.
- ° Provide assistance to management on human resource planning and organizational effectiveness.
- ° Coordinate human resource activities within the amalgamated Human Resource unit including the Departments of Agriculture and Food, and Intergovernmental Affairs.
- ° Provide comprehensive payroll and benefit administration services, including attendance management for the amalgamated payroll operations and Management Information Reporting of the Departments of Agriculture and Food, Intergovernmental Affairs, including the Manitoba Agricultural Credit Corporation and the Food Development Centre.
- ° Provide assistance to management on Workplace Health and Safety issues.

Expected Results

- Skill development in orienting new employees and managing performance.
- Improved knowledge and skills to ensure provision of quality service to clients.
- Improved productivity through performance management and measurement.
- Administration, implementation and evaluation of the department's staffing and wage & salary systems under delegated authority.
- Continued emphasis on Employment Equity in staffing and development.
- Continued coordination of department redeployment initiatives.
- Continued assistance and advice to management on labour relations issues.
- Assist management to plan effective human resource strategies to enhance organizational effectiveness.
- Provision of comprehensive payroll services and benefits administration.
- Implementation of a skills inventory system, for career management, training and development competencies and work force adjustment.
- Assist management to plan effective safety and health strategies for the department.

MANITOBA CROP INSURANCE CORPORATION – 2A

Objective

- ° To provide Manitoba's agricultural producers with effective risk management programs, primarily through insurance protection for crop losses due to uncontrollable natural hazards.
- ° To provide compensation to producers who incur crop losses caused by wildlife.

Activity Identification

- ° To research, develop, sell, service and administer the following insurance programs in Manitoba:
 - Canada/Manitoba Crop Insurance Program; and
 - Hail Insurance Program.
- ° Provide compensation to producers for big game and waterfowl damage to crops, and for livestock predation, all in accordance with specified procedures.

Expected Results

- ° Provide crop insurance to approximately 10,500 production units on 8.7 million acres.
- ° Provide accurate adjusting procedures and reasonable hail insurance rates across the province.
- ° Provide new and improved programs based on continued research and development.
- ° Provide efficient and effective delivery and administration of all programs.
- ° Provide compensation to farmers who incur losses due to big game, waterfowl and livestock predation.

 Premiums		 24,000.0 [2]		 27,600.0
 Wildlife Damage Compensation		 1,034.0		 1,000.0
 TOTAL SUB-APPROPRIATION		 <u>29,499.6</u>		 <u>32,899.8</u>

[1] The increase of 1.00 FTE is the result of the conversion of 1.00 term staff to regular status.

[2] The decrease is mainly the net result of a discount in premium rates due to the level of funds retained within Manitoba Crop Insurance Corporation offset by other program adjustments such as an increase in the forecasted market prices.

NET INCOME STABILIZATION ACCOUNT (NISA) – 2B

Objective

- ° To provide producers with permanent, comprehensive, predictable, individually-targeted net income stability.

Activity Identification

- ° Monitor the NISA program and provide the Minister with advice on its effectiveness. A departmental representative is a member of the National NISA Committee.
- ° The Net Income Stabilization Account (NISA) is administered by the Federal Government through the NISA Administration.
- ° The NISA program is available for all commodities with the exception of supply-managed products, and inedible horticultural commodities.
- ° Producers contribute up to 3% of eligible net sales to their individual NISA account and may make additional contributions of up to 20% on a voluntary basis. Government contributions are shared: provincial – 1%; federal – 2% of the producers' eligible net sales. An interest bonus of 3% is paid on funds contributed by producers, shared equally by the province and the federal government.

Expected Results

- ° Producers will realize increased stability in net incomes by making withdrawals from their individual accounts when their net income drops.
- ° Approximately 20,000 Manitoba participants are expected to be enrolled in NISA for the 2000 stabilization year (2001/2002 fiscal year).

MANITOBA AGRICULTURAL CREDIT CORPORATION – 3

Objective

- ° To provide the administrative and operational support for the programming carried out by the Manitoba Agricultural Credit Corporation.

Activity Identification

- ° Provide farmers with loans for land purchases and farming activities to partially or fully meet their financial requirements.
- ° Provide for administration of the Young Farmer Rebate.
- ° Provide guaranteed loans in cooperation with the private sector.
- ° Provide special farm assistance in cooperation with the Manitoba Farm Mediation Board.
- ° Provide disaster relief assistance as directed by the Government of Manitoba in emergency situations.

Expected Results

- ° Provide a total outstanding loan program in the range of \$300 million for over 6,000 Manitoba farmers.
- ° Provide an estimated total of \$58.7 million in new loans.
- ° Provide the Young Farmer Rebate to assist eligible Manitoba farmers.
- ° Continue guaranteed loan programs in concert with private sector lenders.
- ° Provide funding of guarantees under The Family Farm Protection Act.
- ° Administer programs that address identified emergency situations.

MARKETING AND FARM BUSINESS MANAGEMENT -- 4A

Objective

- To manage the financial resources and personnel of the Agricultural Development & Marketing Division and ensure the effective implementation of the division's programs and activities.
- To provide programs and support to farm families, industry and extension staff in the areas of farm management, marketing, international trade, value-added and diversification, agricultural adaptation, 4-H & youth, agriculture curriculum and awareness, home economics, and agricultural societies aimed at strengthening the agricultural and food sector.
- To strengthen the competitive position of Manitoba's agricultural industry by assisting in the identification, investigation and development of new markets and expand existing markets; increase opportunities for economic activity in the production and marketing of value-added and diversified products; and through promotional activities, to enhance the demand for provincially grown and processed food products.

Activity Identification

- Provide leadership and coordinate the implementation of Department policies and priorities within the Agricultural Development & Marketing Division in concert with the goals and aims of *Destination 2010*.
- In partnership with producers, associations, and the agri-food industry, participate in the development of strategies that focus on diversification and market development of value-added food products.
- Assess and quantify export market development opportunities in partnership with the agri-food industry.
- In cooperation with stakeholders, assist in the organization of and participate in outgoing and incoming trade missions with seminars organized for potential buyers and investors of Manitoba agricultural products and services.
- Through a variety of mediums, including our web-site, provide regular market information and intelligence on export opportunities.
- Respond to industry needs through participating in trade shows aimed at encouraging sales to and investment of industry dollars, technical and

human resources from Canada, Europe, South America, Asia, Mexico and the USA into Manitoba's agriculture and food industry.

- Work with industry to develop potential opportunities for foreign investment in the Manitoba agri-food industry.
- In collaboration with industry determine promotional resource materials needs to achieve effective market development initiatives.
- Work with the Food Development Centre as well as other food research agencies in the development of new and/or improved food products.
- Coordinate and administer the Century Farm Program.
- Provide leadership on farm management issues to young and beginning farmers, farm managers, agri-lenders, and other industry partners.
- Provide support to the Manitoba Farm Business Management Council.
- Develop farm and family financial management resource materials as well as technical support to farm businesses, marketing clubs, agricultural lenders, extension staff, industry and other government departments.
- Provide pathfinding, non-financial assistance, and training to producers and entrepreneurs in export readiness, market and consumer trends, business development, marketing, financing, production technology, economics of value-added agricultural products, quality control and HACCP-based systems.
- In partnership with agri-industry, provide information and opportunities for the non-farm consumers and youth to increase their awareness of Manitoba's agriculture, food and rural sector.
- Provide leadership, technical support and training to Home Economists and other extension personnel delivering family finance, farm stress management, farm safety, food safety, and food quality programs for farm and rural families.
- Provide support to Manitoba Women's Institute and partner with the organization to deliver client driven family and community based programs.
- Work with farm women's organizations in developing rural leadership skills.
- Provide opportunities for youth and adults to develop entrepreneurial, communication and rural leadership skills.

- ° Provide 4-H technical program support to the extension staff, Manitoba 4-H Council and rural clients.
- ° Work with the agri-food sector to establish integrated strategic alliances and collaborative interactions aimed at expanding marketing of agricultural commodities.
- ° Work with Agricultural Societies towards promoting improvements in agriculture, food production and rural family living skills.
- ° Arrange educational events promoting agricultural based products and improvements to farm and rural living skills in Manitoba communities.
- ° Provide support to and partner with Agriculture in the Classroom-Manitoba Inc. in resource development, specific to Manitoba Education and Training's school curriculum and program delivery.
- ° Support community-based farm safety initiatives to reduce farm accidents and fatalities.
- ° Partner with Manitoba Farm and Rural Stress Line and Manitoba Health to further enhance and promote the Line Services to farm and rural families.
- ° In partnership with others, including industry groups and producers, develop and deliver a variety of production and management training courses and seminars to enhance production, farm and business management, marketing, succession planning for the farm family business, and dealing with agricultural employment issues.

Expected Results

- ° Strengthen Manitoba's position in key markets.
- ° Provide market information and intelligence for industry partners to enhance their market awareness, export readiness and export effectiveness.
- ° Support studies and market investigations to improve the understanding of market issues.
- ° Coordinate and participate on incoming and outgoing priority market trade missions, anticipating 28 foreign missions to be hosted in 2001/2002.
- ° Respond to inquiries for sources of Manitoba agricultural commodities in cooperation with industry.

- Identify existing and new resource material to support export readiness.
- Participate in trade shows and trade missions in Canada, Japan, Korea, China, United States, Mexico, Brazil and Europe to support increased market promotion.
- Sponsor seminars in cooperation with industry partners to promote Manitoba agricultural commodities and food products.
- Provide market trends and agri-food and fibre product development information to staff, the agriculture industry and entrepreneurs.
- Support marketing and commodity groups.
- Complete 16 cost of production budgets, 10 farm management factsheets addressing specific issues in agriculture today.
- Complete and update 15 Excel-based software tools on farm financial management and planning.
- Coordinate Manitoba projects funded from the Farm Business Management Council.
- Provide international clients with regular information from Manitoba's agriculture industry to increase awareness of our agricultural products and exports.
- Deliver food safety and risk communication information and training to 1,000 consumers, partners and families through presentations, Home Page and the distribution of 15 major information resources.
- Conduct agriculture awareness activities involving 4-H membership, farm and non-farm youth and adults, educators, and agri-industry partners through displays, conferences and resources in project materials.
- Provide assistance in development and use of farm safety information designed to educate rural children and adults, including 4-H members & leaders, as well as in the coordination of the farm safety program.
- Provide coordination and leadership in the 4-H program for:
 - 237 4-H clubs
 - 4,328 4-H members
 - 1,803 volunteer leaders
 - Manitoba 4-H Council and its 30+ provincial programs
 - 24 4-H Ambassadors

- Provide leadership development opportunities for rural communities through Agricultural Societies, 4-H, Women's Institute, community economic development groups, and strategic business partnerships.
- Administer *The Agricultural Societies Act* and *Manitoba Women's Institute Act*.
- Recognize Century Farm Families with certificate and gate signs.
- Provide resources, skills and training activities to increase economic activity in the production and marketing of value-added and diversified agricultural products.
- Provide information and training to 4-H members, leaders, families, agricultural societies and livestock organizations on animal care and ethics issues.
- Participate on the Manitoba Farm and Rural Stress Line Advisory Board, and promote the use of Line Services by farm and rural clients.
- Farm families and consulting professionals will receive succession planning information, consultation and support. The Family Farm Business Advisor will be updated and distributed to 150 professionals. Sixty farm family units will access resource material, *Managing the Present...Planning the Future*, through seminars, courses or self-study.
- Provide a series of educational family financial factsheets and budget guides, for use by staff, partners, and clients (500 resources distributed).
- Provide farm stress management information to farm/rural clients, through presentations and staff consultation, and development of resources.
- Support the continued development of Agri-Tourism opportunities that add value and provide additional income to farm clients.
- Provide resource support for the Department maintenance and further development of its Internet Home Page.
- Provide technical and training support to extension personnel to assist them to deliver financial counselling and advice to agricultural producers experiencing financially challenging situations.
- Develop one new agriculture awareness resource or interactive tool.

- Coordinate a major producer conference focussed on adding value and diversifying farm income.
- In cooperation with other staff provide training to department staff and other agencies related to quality control and HACCP-based programs.

ANIMAL INDUSTRY – 4B

Objective

- To enhance the development, productivity, output and marketing capabilities of Manitoba's livestock producers and processors by providing technical and specialized services to regional extension staff, farmers and processing industry.

Activity Identification

- Administer Acts and Regulations delegated to the Branch and update relevant Acts and Regulations to ensure they meet the needs of today's agri-food sector and consumers of Manitoba food products.
- Provide specialist technical production support to the Department for beef, dairy, swine, sheep, poultry, horses, bison, elk, non-traditional livestock and food safety.
- Operate the Provincial Dairy Laboratory for microbiological, chemical, physical and quality parameters of raw milk and processed milk products.
- Operate and coordinate milk check sample programs for dairy industry laboratories for selected analyses including antibiotics, fat and bacteria.
- Inspect Manitoba's dairy farms, dairy plants and storage depots for consumer health protection as specified in The Manitoba Dairy Act and the Dairy Regulation.
- Provide information on International Technical Barriers to Trade and Sanitary/Phytosanitary proposals submitted to WTO to the province's extension staff and the production and processing sectors.
- Provide marketing information and technology transfer to the meat and dairy industry (especially entrepreneurs, small and medium-sized businesses) in product development, process development, packaging and ingredients.
- Evaluate all milk pasteurizers in the province annually and seal critical control points.
- Identify all livestock processing companies in primary, secondary and tertiary processing of meat and dairy products.
- Provide training to selected dairy processing industry personnel.

- Support commodity groups with the development, delivery and maintenance of on-farm HACCP-based food safety programs.
- Support progeny proving of tested bulls and sale of breeding stock.
- Provide a secure market environment for sellers of livestock.
- Provide nutritional advice, including the formulation of appropriate rations, to producers and extension staff.
- Develop and expand elk and bison farming program in Manitoba.
- Carry out extension education regarding livestock production and marketing.
- Inspect hatchery supply flocks for disease and sanitation.
- Develop guidelines to provide information for livestock producers on handling livestock manure.
- Implement strategies to promote further coordination of extension and industry resources for the further development and profitability of the livestock sector.
- Support the expanded use of swine artificial insemination through awareness and education of producers.
- Develop a regulatory framework allowing for the implementation of on-farm food safety programs in the province.
- Provide resource material to non-traditional livestock producers.
- Continue to train Manitoba producers in the SNAP test for antibiotics in raw milk.
- Support milk producers and processors in the development of hazard analysis and critical control points (HACCP)-based program for milk delivery.
- Coordinate and operate an industry milk flavour panel involving producers, processors and bulk milk transporters.
- Assist stakeholders in the development and implementation of food safety programs.

- Work with, consult and cooperate with producers, industry groups, federal agencies and other organizations to facilitate development and implementation of producer driven Codex Alimentarius HACCP-based food safety programs in Manitoba.
- Provide information and awareness about food safety programs for general public.
- Assist in the verification of the effectiveness of Codex Alimentarius HACCP-based on-farm food safety programs through present and future testing programs.
- Continue to work with stakeholders to develop an accreditation mechanism for on-farm food safety programs that will be recognized worldwide.
- Harmonize food safety acts, regulations and codes with other governments.
- Under the Livestock Stewardship Initiative work with producers, other provincial departments and municipalities to protect the environment and to ensure that the province's livestock industry grows in a responsible and sustainable manner.
- Work with producers and other departments in reviewing "Finding Common Ground" and developing an action plan.

Expected Results

- Administer The Dairy Act, The Livestock and Livestock Products Act, The Livestock Industry Diversification Act, The Animal Liability Act, The Margarine Act and associated regulations.
- Provide approximately 60,000 regulatory tests on raw and finished dairy products, over 17,000 analyses for extension activities and provide for inspections of approximately 650 dairy farms, and 19 licensed processing facilities to ensure adherence to sanitation and production/processing requirements; and to ensure all pasteurized dairy products are processed according to regulations.
- Continue support for progeny testing of station-tested bulls and the sale of breeding stock.
- Industry dairy laboratories will improve and strengthen analytical capabilities through participation in check sample program.

- Administer brands registration and maintain brand records (5,427 registered brands).
- Province's agri-food sector (producers and processors) will be updated on standards and regulation changes proposed by Canada's trading partners.
- Provide brochures, factsheets and other literature on livestock production and marketing.
- Inspect hatchery supply flocks to ensure Manitoba poultry meets domestic and international requirements.
- Increase communication and the transfer of technology and target production systems to new market demands. For example, there is a growing consumer demand for high lean/low fat meat products creating a need for a major shift in production and marketing strategies.
- Provide support, direction and evaluation to industry studies, joint ventures and research projects.
- Register all milk producers and license all dairy processing plants and key dairy processing personnel in Manitoba.
- Administer livestock dealer licensing and bonding (100 dealers and 90 registered agents).
- Provide management analysis procedures for sustainable animal systems.
- Assist the livestock industry in facilitating a means for vendor security programs.
- Develop programs and provide management information to the horse and bison industry.
- Develop a safety-based, milk production management program recognized world-wide.
- Reduce the amount of raw milk dumped due to the presence of antibiotics, hence less loss to producers.
- Identify producers who may develop flavour quality problems in raw milk before the problem leads to economic loss by producers.
- Provide extension material and management advice to producers of non-traditional livestock.

- Continue to provide nutritional information and rations to producers, staff and industry.
- License elk farms and inspect them on an annual basis.
- Develop and implement Codex Alimentarius HACCP-based on-farm food safety programs as well as develop related verification procedures.
- Assure consumers that Manitoba dairy products are safe, high quality products.
- Increase participation of livestock producers in recognized on-farm HACCP-based food safety program.
- Develop harmonized regulations and codes for food safety with other governments.
- Continue the development and implementation of and assist in stakeholder training about food safety programs and HACCP.
- Under the Livestock Stewardship Initiative work to protect the environmental and economic future of Manitoba.
- Develop action plan for those parts of "Finding Common Ground" that are applicable to the branch.

VETERINARY SERVICES – 4C

Objective

- To advise on the control, prevention, and surveillance of livestock diseases; to encourage the availability and use of veterinary and diagnostic laboratory services; to administer the public animal hospitals; and to deliver a humane inspection/animal care program throughout Manitoba.

Activity Identification

- Administer Acts and Regulations delegated to the Branch.
- Administer the animal health provisions of the Animal Diseases Act.
- Administer the humane treatment provisions the Animal Care Act.
- Manage the Veterinary Science Scholarship Fund and the veterinary student summer employment activities.
- Administer grants and supervise the operations of municipal animal hospitals under the Veterinary Services Act.
- Administer the diagnostic laboratory to assist rural and urban veterinarians.
- Provide disease surveillance programs for animal and zoonotic diseases.
- Promote on-farm food safety programs.

Expected Results

- Effective administration of the Animal Diseases Act, Animal Care Act, Veterinary Science Scholarship Fund, the Veterinary Services Act, and the Veterinary Medical Act.
- Ensure that all complaints are investigated and corrective measures taken where necessary concerning inhumane treatment of animals.
- Minimize the threat of animal diseases being transmitted to humans and other animals.
- Hire veterinary students to provide them with experience and provide scholarships to encourage their return to a rural practice after graduation.

- Requisition appropriate grants and supervise 28 municipal animal hospitals (clinics), ensuring that the Veterinary Service Districts meet their commitments.
- Effectively manage the diagnostic laboratory to assist rural and urban veterinarians through the provision of tests and professional expertise.
- Establish surveillance measures for significant livestock diseases in cooperation with the Canadian Food Inspection Agency, and other provincial government departments.
- Increased uptake of on-farm food safety programs by livestock producers.

[1] The increase is mainly the result of protecting the province's livestock industry through more aggressively managing the disease monitoring program in Manitoba.

SOILS AND CROPS – 4D

Objective

- ° To provide farmers, regional staff and agri-business with technical and specialized services and information for enhancing the cropping diversity, productivity, output and marketing skills of Manitoba's crop producers.
- ° To provide agricultural land use planning, soil and water management and technical assistance to farmers, local and provincial farm organizations, municipalities, planning districts, departments and agencies, as well as other groups.
- ° To provide coordinated program development in crop production and soil & water management.
- ° To facilitate and support the development of value-added agri-food processing of Manitoba's crops.

Activity Identification

- ° Administer Acts and Regulations delegated to the branch.
- ° Provide specialist technical support to the department, farmers and agri-business in cereals, oilseeds, pulses, potatoes, special crops, weeds, insects, plant diseases, forages, beekeeping, horticulture, soil resource inventory and interpretation, soil & land management, soil fertility, agro meteorology and land use planning.
- ° Develop and implement strategies for crop & forage production, pasture & range management and soil & water management.
- ° Implement and coordinate programs in support of agricultural sustainability.
- ° Participate in the provision of training for pesticide dealers and applicators and provide a licensing system for pesticide dealers and applicators.
- ° Coordinate field crop and forage crop variety evaluation.
- ° Investigate and demonstrate new field and horticultural crops and grazing strategies.
- ° Investigate and demonstrate production practices for field, horticultural and forage crops, including: weed, insect, and disease control; and soil & water management.

- Support federal/provincial and international cooperative programs in crop, forage, pasture and horticultural production and in soil and water management, by representing Manitoba on multilateral and bilateral committees.
- Cooperate with growers and agribusiness to identify and exploit new opportunities in agricultural production and processing.
- Advise planning districts, municipalities and government agencies on agricultural land use issues.
- Diagnose plant samples for diseases, insect, and herbicide damage and provide insect and weed identification.
- Diagnose bees and beekeeping equipment samples for diseases.
- Provide technical information and training to rural municipalities in the areas of weed and insect control.
- Provide financial support to municipalities for grasshopper control on road allowances.
- Conduct detailed soil resource inventories that are R.M. based or project specific.
- Expand market opportunities for forage products including cubes, pellets, hay and seed.
- Provide a biological weed control program and an Integrated Pest Management program.
- Coordinate the Crop Residue Burning Authorization Program to control smoke from crop residue burning, develop and extend technology related to straw management alternatives and promote alternative straw utilization opportunities.
- Under the Livestock Stewardship Initiative work with producers, other provincial departments and municipalities to protect the environment and to ensure that the province's livestock industry grows in a responsible and sustainable manner.
- To support through technical reviews the Agricultural Research and Development Initiative.

Expected Results

- ° Administer and carry out the intent of the Fruit and Vegetable Sales Act, Noxious Weeds Act, Pesticide and Fertilizers Control Act, Plant Pests and Diseases Act, and Bee Act.
- ° Provide assistance to farmers and agri-business through provision of technical information, demonstrations and investigation of new crops, field crops, forage crops, horticulture, pasture and range grazing systems, weed and insect control, soil fertility, and soil & water management.
- ° Complete detailed soil inventory on 25,000 ha of land and develop associated maps and data bases in digital and hard copy formats.
- ° Provide input and recommendations on a range of land use related issues via assessment of written proposals (150) and participation on technical advisory committees (10).
- ° Diagnose more than 1,300 crop samples for plant diseases, herbicide injury and insect damage.
- ° Provide technical support and training for municipalities participating in Weed Control Districts by assisting with two "weed schools" and one summer "weed tour".
- ° Provide technical and organizational assistance to local delivery groups involved in agricultural sustainability programming.
- ° Provide daily Crop Residue Burning Authorizations (Aug. 1 to Nov. 15) in accordance with the Crop Residue Burning Regulation (77/93) under the Environment Act and information in response to 10,000 enquiries.
- ° Publish and sell 5,000 copies of the most recent issue of the *Guide to Crop Protection*.
- ° Publish and distribute 25,000 copies of the most recent issue of *Seed Manitoba*.
- ° Provide technical assistance to producers regarding management of crop residues; provide support in developing economic opportunities for utilizing cereal and flax straw.
- ° Diagnose more than 5,000 bee colonies and 1,000 honeybee and leafcutter bee samples for diseases.

- Provide municipalities with financial assistance for grasshopper control if needed.
- Develop digital agro ecological maps as a basis for monitoring, assessing and projecting crop variety adaptation, crop diseases, weed and insect problems, crop yields and quality as well as other factors.
- Publish and distribute timely, seasonal bulletins during the growing season.
- Conduct a field crop diagnostic school providing field scout training to 300 agronomists from industry and government.
- Support the establishment of a real-time weather monitoring network for agriculture as well as the establishment of a prairie Agrometeorology Centre of Excellence to focus on the development and delivery of a range of associated management applications (for example, forecasts for late blight in potato, sclerotinia in canola, irrigation scheduling information) as well as agriculturally related climate change issues.
- Under the Livestock Stewardship Initiative work to protect the environmental and economic future of Manitoba.

SOILS AND CROPS - 4D

Total Other Expenditures		<u>1,065.6</u>		<u>1,074.0</u>
TOTAL SUB-APPROPRIATION		<u>4,074.5</u>		<u>4,064.8</u>

- [1] The decrease is the result of realigning staffing resources to meet the changing demands of industry. An additional resource was placed in organic production in the 2000/01 budget and a vacancy currently removed from the soil management area.

IRRIGATION DEVELOPMENT – 4E

Objective

- To facilitate the development of retention ponds, irrigation water distribution systems and related infrastructure in support of irrigated crop production.
- To provide technical and specialized services to producers, irrigation associations and commodity groups to support irrigated crop production.
- To support technology transfer and monitoring programs to support environmentally sustainable irrigation practices.

Activity Identification

- Provide financial support to irrigation associations for off-farm irrigation infrastructure development.
- Support irrigation associations in implementing area plans for water supply and management.
- Provide technical support to producers on sustainable crop and irrigation management practices.
- Support environmental monitoring of soil and water resources which may be utilized in, or impacted by, irrigation.

Expected Results

- Development of retention ponds and water distribution systems to service 4,000 additional irrigated acres.
- Provision of technical assistance to producers related to irrigated potato production, soil and water management and crop rotations.
- Continued support of soil and water quality monitoring at selected sites.

IRRIGATION DEVELOPMENT - 4E

	FTE	\$(000's)	FTE	\$(000's)
Irrigation Development		<u>1,572.5</u> [1]		<u>822.5</u>
TOTAL SUB-APPROPRIATION		<u><u>1,572.5</u></u>		<u><u>822.5</u></u>

- [1] The increase is mainly the result of providing incremental funding for the continuation and expansion of the program to support the development of irrigated crop production and food processing in Manitoba.

FOOD DEVELOPMENT CENTRE (FDC) – 4F

Objective

- To provide up-to-date, unbiased technical information to the agri-food industry, with emphasis on leading-edge technologies in product and process development.
- To provide education and training to industry through technical seminars and workshops.
- To provide technical and federally accredited pilot plant services for the production of safe and wholesome food products.
- To create awareness of value-added processing of agri-food commodities and promote the capabilities of the Food Development Centre.
- To promote the creation of a seamless agri-food development process within Manitoba Agriculture and Food, from idea conceptualization to product marketing.
- To ensure coordination and effective use of resources across the agri-food sector through liaising with industry, academia and government.

Activity Identification

- The Food Development Centre (formerly the National Agri-Food Technology Centre of the Economic Innovation and Technology Centre) was created as a Special Operating Agency of Manitoba Rural Development (now Intergovernmental Affairs) on April 1, 1996. On December 15, 1999, it was transferred to Manitoba Agriculture and Food.
- Provide leadership in the creation, expansion and diversification of the agri-food industry through industry networks and expertise in food processing.
- Support Manitoba's value-added agri-food industry through interdependent service lines: new product development, new process development, information services, educational services, and technology transfer services.
- Completed a 5-year strategic plan that will enable the FDC to facilitate the participation of Manitoba's entrepreneurs in Canada's move to greater value-added processing while at the same time creating new markets for local agricultural products. FDC will focus its activities on meat, vegetables, fruit, grain and oilseed.

Expected Results

- ° Facilitate the creation of 20 new employment opportunities.
- ° Facilitate an increase in the Province's GDP of \$198.0 (five-year impact \$2.2 million).
- ° Facilitate an increase in the Provincial tax revenue of \$18.2 (five-year impact of \$0.2 million).
- ° Assist in the development of 15 new food products.
- ° Implement a nutritional labelling service line, perform analysis on 50 products.
- ° Assist in the creation or expansion of 10 food processing companies.
- ° Perform in-plant troubleshooting for 12 food processing companies.

FOOD DEVELOPMENT CENTRE - 4F

		<u>15,390.2</u>	<u>14,835.4</u>

COMBINED FOUR REGIONS -- 5A, 5B, 5C, AND 5D

Objective

- To provide front line delivery of departmental programs and services in support of assisting farmers and their families in improving their incomes and well-being.
- To assist producers and their families by improving their knowledge and skills regarding farm management, marketing, sustainable production approaches, adding value, diversification and economic development options.
- To assist farm families in improving their family living skills and to assist rural communities in leadership development by providing 4-H and youth and home economic services to rural residents.

Activity Identification

- Assist farm businesses in improving the stability of their net incomes through diversification; self-reliance initiatives; and enhanced farm management, production and human resource management skills.
- Assist farmers and their families in the understanding of and participation in government risk reduction support programs.
- Provide leadership in bringing various strategic partners (producers, consumers, government, financial and scientific communities, processors, marketers) together to develop and expand value-added processing in Manitoba.
- Assist producers and agri-value processors to increase sales of primary and processed products to domestic and international markets.
- Increase the Manitoba public's awareness and understanding of the importance and contribution of the agri-food industry to the province's economy.
- Enhance the Manitoba public's confidence in the quality, safety and economy of Manitoba's food supply.
- Assist rural communities in leadership and economic development.
- Encourage and support the sustainable development of Manitoba's agricultural and food sector.

- Provide a 4-H program with leadership training and personal development to rural youth.
- Under the Livestock Stewardship Initiative work with producers, other provincial departments and municipalities to protect the environment and to ensure that the province's livestock industry grows in a responsible and sustainable manner.
- Under the Project 2000 Initiative assist young and beginning producers develop and manage viable farm operations.

Expected Results

- Provision of direct client extension services to encourage: environmentally sound production practices; the integration of farm management decisions incorporating production, financing, and marketing factors; upgrading farm management and leadership skills in response to the challenges of a competitive sectorial environment; expanding value-added production and processing; enhancing knowledge and understanding of risk reduction systems and producer self-reliance to ensure viability of farming operations.
- Provide opportunities for networking with and strengthening of strategic partnerships.
- Explore marketing and market development opportunities with producers, producer groups and agri-business.
- Increase awareness by school students of the nature of the agri-food industry and of agricultural career opportunities.
- Increase public awareness of the high quality, low prices, abundance, variety and safety of Manitoba food products.
- Assist in the improved development of rural leadership through 4-H and youth program activities such as workshops, competitions, rallies, conferences, member exchanges, livestock shows, leadership training, and demonstration projects.
- Assist in the formation of information and support groups that deal with specific and technical needs (for example, marketing clubs, commodity groups, and farm family support groups).

- ° Assist producers' efforts to conserve and improve the quality of soil and water resources.
- ° Assist participants within the agri-food sector with knowledge and skills through individual contacts, in-depth consultations, networking, meetings, seminars, field days, tours, clubs, workshops, as well as other activities.
- ° Utilize various media venues to reach farmers, farm families, agri-industry and the consumer (for example, newsletters, news columns, flyers, posters, radio, TV, pamphlet distribution and displays).
- ° Under the Livestock Stewardship Initiative work to protect the environmental and economic future of Manitoba.
- ° Under Project 2000 assist young and beginning participants in improving the viability and profitability of their farm operations.

AGRICULTURAL CROWN LANDS – 5E

Objective

- To administer leases and permits as set out in policy and to represent the agriculture interests in Crown land for the benefit of both lessees and the Province of Manitoba.

Activity Identification

- Administer Crown land classified for agricultural use which includes long-term forage and cropping leases, permits and land management.
- Represent agricultural interests in the assessment of Crown land for multi-resource use.
- Represent agricultural interests in the Provincial Land Sale Program.
- Cooperate with Prairie Farm Rehabilitation Administration in the operation of community pastures on agricultural Crown land.
- Work in cooperation with regional extension services to assist clients improve forage productivity.

Expected Results

- Administer approximately 2,384 long-term forage leases involving 1.6 million acres and 84 cropping leases involving 13,000 acres.
- Cooperate with Manitoba Conservation in the classification of Crown land for multi-resource utilization.
- Improve productivity through partnering with extension staff in areas of forage and rangeland management.
- Provide grazing for 50,710 head of cattle and 3,162 horses on 24 community pastures involving 432,918 acres during the summer grazing season.

ECONOMICS -- 6A

Objective

- To manage the financial resources and personnel of the Policy & Economics Division and ensure the effective implementation of the division's programs and activities.
- To provide program analysis/evaluation and management support documents towards enhancing economy and effectiveness of the department's programs and activities.
- To provide central budget/Estimates support through preparation of narratives through all major phases of the Estimates process.
- To advise on long term policy and program development for the agricultural industry in Manitoba.
- To provide agricultural statistical, marketing, production and outlook information to farmers, the agricultural industry and staff.
- To provide relevant and timely department statistical, marketing, and production information to all Manitobans, the agriculture industry and staff via the medium of the World Wide Web.

Activity Identification

- Provide leadership and centrally coordinate the implementation of Department policies and priorities within the Policy & Economics Division.
- Provide the department with reviews of identified programs and activities.
- Provide overview and program information supporting the various budget development processes and documents.
- Provide the department with professional and technical support for economic analysis of federal and provincial policies and programs.
- Provide the department and the public with agricultural statistics and market information.
- Analyze domestic and international markets for grains, oilseeds and livestock.

- Provide leadership in the further development of Project 2000 in support of assisting young and beginning producers while addressing the income need of retiring farmers.
- Provide leadership for and centrally administer the Department's Internet Home Page.

Expected Results

- Conduct reviews of designated program areas as established by senior executive.
- Coordinate and provide program information and results to support departmental estimates and related documents such as the narrative portion of the Supplementary Information for Legislative Review document and Preliminary Estimates package to Treasury Board.
- Prepare various annual documents such as: *Programs and Services for Agriculture, Manitoba Agricultural Review, Manitoba Agriculture Yearbook, and Profiles for the Livestock, Poultry, Grains & Oilseeds, Specialty & Forage Crops, and Potato & Other Vegetables Industries.*
- Provide the department with background support data on agricultural income stabilization.
- Provide the department with economic studies as required (such as on farm income, farm financing, transportation and trade subjects).
- Consult with stakeholders regarding developments in agricultural programs and policies.
- Develop and maintain a database for market analysis purposes.
- Prepare provincial agricultural estimates in conjunction with Statistics Canada, including those related to farm income, crop production, livestock production and vegetable production.
- Provide provincial input into and participate on various federal/provincial committees (emphasis has been on safety nets, trade and transportation).
- Provide outlook information on grains, oilseeds and livestock markets at Ag Days, regional meetings and marketing clubs.
- Provide information on agricultural policy developments at provincial, regional and producer meetings.

- Coordinate the overall development of the Manitoba Agriculture and Food annual comprehensive business plan for the Department.
- Provide leadership and support in the completion and launching of various stages of Project 2000, including its mentoring and enhanced awareness components.
- Provide communication and leadership in coordinating the Department's implementation process in support of Manitoba Agriculture and Food's new vision entitled, *Destination 2010*.
- Maintain and enhance comprehensive and timely information on the Department's Home Page.

BOARDS AND COMMISSIONS SUPPORT SERVICES -- 6B

Objective

- To provide staff support to the Natural Products Marketing Council, the Farm Machinery Board, the Milk Prices Review Commission, the Agricultural Producers' Organization Certification Agency and the Farm Practices Protection Board.
- To conduct the program delivery functions set out in The Family Farm Protection Act and The Farm Lands Ownership Act.

Activity Identification

- Supervise producer boards and marketing commission responsible for regulating various agricultural commodities, either through regularly scheduled meetings (12 to 14); delegations of the boards and/or industry representatives (16 to 18); or as issues arise relating to the operation of the boards and commission (four-six).
- Serve as an appeal body for persons affected by the decisions of various commodity boards and commissions (four-five).
- Convene approximately seven to nine Board meetings to consider applications for leave to repossess farm machinery (100 to 125); license dealers and vendors (250); provide financial protection through the Farm Machinery and Equipment Act Fund; and mediate farm machinery and equipment difficulties (20 to 25).
- Assist the Milk Prices Review Commission in establishing milk prices at the producer, wholesale and retail level; respond to enquiries (50 to 100); and monitor the cost of production formula for fluid milk.
- Assist the Agricultural Producers' Organization Certification Agency in certifying and designating organizations, subject to producer referendums, authorized to fund their activities through membership fees deducted from producer marketings of agricultural products.
- Mediate and attempt to resolve nuisance complaints (8 to 10) relating to odour, noise, dust, smoke or other disturbance resulting from an agricultural operation (taking into consideration normal farm practices, land use control laws, The Environment Act, The Public Health Act and the Regulations under the respective Acts).

- Through the Family Farm Protection Act, assist farmers in improving and sustaining their farming operations under difficult economic conditions through mediation with their creditors, financial counselling, and loan payment guarantees.
- Under the Farm Lands Ownership Act, consider applications for exemption from non-Canadians and public organizations who wish to acquire an interest in farm land in Manitoba.

Expected Results

- Supervision of the following marketing boards and commission:
 - Manitoba Broiler Hatching Egg Commission
 - Manitoba Chicken Producers
 - Manitoba Egg Producers
 - Manitoba Pork Council
 - Manitoba Beekeepers' Association
 - Manitoba Milk Producers
 - Manitoba Turkey Producers
 - Peak of the Market
- Ensure that the producer boards and marketing commission operate within their respective legislative authorities; render decisions to uphold or dismiss appeals by individuals affected by a board's or commission's order; and provide advice to the Minister on issues affecting the various provincial marketing plans, and federal-provincial agreements.
- Examine applications for leave to repossess farm machinery; render decisions on the applications; and mediate differences between producers and farm equipment dealers/manufacturers.
- Establish fluid milk prices at the producer level and maximum wholesale and retail prices, based on costs of production, processing and retailing.
- Conduct referendums as requested amongst producers to determine if commodity organizations should be designated under The Agricultural Producers' Organization Funding Act; and to certify one general policy organization.
- Investigate applications to determine whether related disturbance results from a normal farm practice; and endeavour to resolve a dispute between the aggrieved party and the owner/operator of the agricultural operation.

- Review applications (150 to 200) from both lenders and farmers for assistance in resolving the farmer's financial difficulty; achieve settlement in 70-80% of cases.
- Ensure that the applications for exemption under the Farm Lands Ownership Act are considered within specific guidelines, and provide a response within 30 days in 90% of cases.

BOARDS AND COMMISSIONS SUPPORT SERVICES - 6B

AGRI-FOOD RESEARCH & DEVELOPMENT INITIATIVE (ARDI) – 7A

Objective

- ° To provide an investment commitment for research and development relating to the successful and progressive growth and adaptation of Manitoba's agriculture and agri-food industry within the changing global marketing environment.

Activity Identification

- ° ARDI provides financial support to commodity groups, individuals, industry, and institutions on a project-by-project basis, based upon the expected potential for return on investment dollars.
- ° The focus of ARDI is on value-added production, processing, and exporting of higher value products.
- ° There are three key parties involved in the management of the ARDI program.

1. The ARDI Program Council is an independent committee including agriculture and agri-food industry representatives and federal and provincial non-voting members.

Program Council responsibilities include the development of ARDI program objectives, policies, and project assessment criteria. The Council prioritizes ARDI funding and approves eligible project proposals.

2. The day-to-day administration of ARDI is the responsibility of the Manitoba Association of Agricultural Societies (MAAS). Duties include accepting and coordinating proposals and administering the disbursement of funds.
3. Manitoba Agriculture Program Advisors provide advisory assistance to MAAS and the Program Council. Advisors facilitate assessments of eligible project proposals on behalf of the Program Council.

Expected Results

- Accelerated growth in Manitoba's value added agri-food sector, and the expedition of effective adaptation in the agricultural community following the elimination of the Western Grain Transportation Act (WGTA) and Canadian Wheat Board freight cost pooling reforms, which together have greatly increased the costs of transporting Manitoba grains, oilseeds, and special crops to export position.
- Build on other initiatives such as research and development support to the University of Manitoba, the Prairie Agricultural Machinery Institute, Sustainable Development Innovations Fund, Manitoba Agri-Ventures Initiative, the Rural Economic Development Initiative, and market development initiatives such as the Manitoba Pork Advantage.
- Attract additional leveraged funds from agri-business, associations, institutions, local organizations, and commodity groups, partnering with the Province to ensure cost effective development and applied research which meets their identified demands. Since 1998/99, total matchable industry funds raised under ARDI totalled over \$13.0 million.
- Reduce potential for mobile industry research and development dollars to flow to other provinces, based on the availability of cost-shared support from provincial research and development funds.
- Enable Manitoba to maintain its comparative advantage relative to other jurisdictions which have established research and development support programs.

AGRICULTURAL SUSTAINABILITY INITIATIVE – 7B

Objective

- To facilitate the adoption of effective resource management and environmentally sustainable practices to enhance long term sustainability and competitiveness of the agri-food sector.
- To facilitate the conservation and enhancement of the natural soil, water and atmospheric resources that agriculture uses and shares by ensuring the environmental sustainability of the practices employed in the agri-food sector.

Activity Identification

- The Agricultural Sustainability Initiative enables Manitoba farmers and farm organizations, local delivery groups, commodity groups and research organizations to undertake activities involving: technology transfer, applied research, economic analysis and communications.
- Undertakings under this initiative involve: Soil Resource Management; Forage/Cover Crop Utilization and Livestock Management; and Integrated Pest Management.
- Manitoba Agriculture and Food staff administer the program as well as serve in a technical and support capacity to assist those participating in delivery of programs under this initiative.

Expected Results

- Accelerated adoption of sustainable agriculture practices across Manitoba.
- Maintained/enhanced quality of agricultural lands.
- Additional "leveraged" funds attracted from other sources as partnerships are formed to carry out program activities.
- Reduced negative impact by agriculture on the environment.

GRANT TO THE UNIVERSITY OF MANITOBA -- 7C

Objective

- To provide financial support to the University of Manitoba for conducting agricultural research projects aimed at enhancing the productivity and income of Manitoba's agriculture and food sector.

Activity Identification

- The department, through a general agreement with the University of Manitoba, financially supports the Glenlea Research Station operation and research projects conducted by the Faculty of Agricultural and Food Sciences.

Expected Results

- Conduct research in support of the department's strategic priority areas:
 - farm profitability,
 - sustainability,
 - food safety and quality,
 - diversification and adding value,
 - market development, and
 - agricultural awareness.
- Funding from this grant is expected to serve as a valuable resource in assisting the Faculty of Agricultural and Food Sciences in attracting outside funding for research (in support of the department's priorities) from non-provincial government sources.

GRANT TO THE PRAIRIE AGRICULTURAL MACHINERY INSTITUTE (PAMI) -- 7D

Objective

- ° To provide financial support to PAMI for conducting agricultural research, development and testing of farm equipment and technology aimed at enhancing the productivity and income of Manitoba's agricultural producers.

Activity Identification

- ° The Province of Manitoba (through Manitoba Agriculture and Food) by way of an agreement with the Province of Saskatchewan financially supports PAMI's operations in Portage la Prairie, Manitoba and Humboldt, Saskatchewan.

Expected Results

- ° PAMI applies technology as a tool for economic development through client-driven activities that support the province's strategic routes:
 - market development,
 - diversification and value-added,
 - farm profitability, and
 - sustainability.
- ° PAMI undertakes research that also supports provincial programs on farm safety, livestock production and risk management.
- ° Investigations of improved methods of storage, handling and utilization of livestock manure contributes to several of these priorities.
- ° Through this practical research and development, PAMI plays an important role in technology transfer to assist producers and the industry to make changes to their operations.
- ° PAMI's work in identifying and working with new manure management techniques and technologies helps to ensure producers and the industry adapt to the new realities of the post-WGTA era in Manitoba.
- ° This grant enables PAMI to leverage industry funding, obtaining fee-for-service income accounting for over 73.5% of its operating budget.

		<u>25,400.0</u>	<u>16,200.0</u>

CANADIAN FARM INCOME PROGRAM – 8A

Objective

- ° To provide Manitoba farmers with income support during periods when their incomes are significantly reduced due to factors beyond their managerial control.

Activity Identification

- ° The Canadian Farm Income Program (CFIP) is the Disaster Aid Program that will be in place for producers' 2000-2002 tax years. CFIP replaces the Agricultural Income Disaster Assistance (AIDA) program.
- ° CFIP is a whole farm program that provides producers with funding to bring their gross margin up to 70% of their previous average.
- ° The Province will fund 40% of the program cost in Manitoba.
- ° The Department will monitor CFIP, have representation on program design and review committees and provide the Minister with advice on its effectiveness.
- ° The Federal Government administers CFIP in Manitoba. The Province funds 40% of the administration cost. The Province conducts some extension activities and provides economic information to the CFIP administration for income calculations.
- ° A Departmental representative and two producers appointed by the Province participate on the CFIP Appeals Committee.

Expected Results

- ° Provide producers with increased stability in net incomes and maintain viable farm units during periods of major economic downturns.

3.9	Amortization of Capital Assets	844.3	834.1
	Provides for the amortization of capital assets.		
		<u>844.3</u>	<u>834.1</u>

AMORTIZATION OF CAPITAL ASSETS -- 9

Objective

- ° To comply with Canadian Institute of Chartered Accountants standards that require that expenditures on tangible capital assets be amortized over the useful life of the asset.

Activity Identification

- ° Tangible capital assets are those with a useful life extending beyond one year which are acquired, constructed or developed and held for use, not for resale. Tangible capital assets with a value less than the accepted capitalization limit will be expensed in the year of acquisition.
- ° Departmental tangible capital assets include machinery and equipment as well as the Department's share of the Desktop Management and Better Methods Initiatives' total estimated project costs.

Expected Results

- ° Recognizing amortization in this way allocates the cost of capital assets to the periods of service provided and amortization is recorded as an expense in the statement of operations.

							606.18	122,089.3

* Adjusted figures reflect historical data on a comparable basis, in those appropriations affected by a re-organization, during the years under review.

Restructured to reflect the change in accounting policy implemented in 1999/2000 regarding tangible capital assets. Assets are expressed over their life expectancy. Capital is classified into three categories - minor, amortization and Capital Investment (see Part 2B).

NOTE: (1) Allocations of funds from Enabling Appropriations Re: 2000/2001 General Salary Increase contained in the latest MGEU Agreement.

(2) As of 2001/2002, 1 FTE was transferred to Manitoba Agricultural Credit Corporation and 1 FTE to Policy and Economics respectively from Policy and Economics and Regional Agricultural Services.

(3) As of 2001/2002, Publication Distribution costs in Administration and Finance were transferred to Agriculture Development & Marketing.

(4) As of 2000/2001, Canada - Manitoba Adjustment Program costs were transferred to Agriculture Disaster Aid Programming.

(5) In addition, 2000/2001 supplementary funding of \$52.2 million was approved for Agriculture Disaster Aid Programming during the year raising 2000/2001 department projections to \$168,987.7.

SCHEDULE 7

**MANITOBA AGRICULTURE AND FOOD
FIVE YEAR EXPENDITURE HISTORY
FOR THE FISCAL YEAR ENDING MARCH 31, 2002**

CHART 3

PART 4

GLOSSARY

GLOSSARY

Cost Element

A cost element is a classification of expenditures according to the nature of expense such as salaries, supplies and services, etc., which identifies the object of expenditure out of appropriation funds. The government accounting system tracks expenditures according to the following cost element groups:

<u>Cost Element Group</u>	<u>Components</u>
Salaries	Regular Earnings, Other Earnings (overtime, shift premium), Ministers and Members of the Legislative Assembly, Fringe Benefits, Other (Worker's Compensation Allowance, Supplement), Health and Education Tax Levy, Benefit Chargeback.
Grants and Transfer Payments	Discretionary Grant, Nondiscretionary Grant, Transfer Payment, Valuation Allowance, Capital Grant.
Transportation	Vehicles, Aircraft, Bus, Train, Taxi, Non-Government Personnel, Travel Agency Fees, Freight/Courier.
Communication	Telephone, Electronic Communication Services, Postal Services, Advertising/Program Promotion, Radio Systems, Other.
Supplies and Services	Operating Supplies, Materials, Office Supplies, Maintenance, Other Services, Rentals, Professional Services, Utilities, Other Fees.
Public Debt	Credit/Debit Card Fees, Gain/Loss on Foreign Exchange, Interest on Debt, Discount on Debt, Amortization - Debt, Interest Charges, Other Charges.
Minor Capital	Land, Buildings, Vehicles, Machinery & Equipment, Computers, Furniture, Leasehold Improvements, Loss on Sale of an Asset, Amortization Expense.
Other Operating	Accommodations, Food and Beverage, Computer Related Charges, Insurance Costs, Publications, Allowances and Other Financial Compensation, Other Personnel Costs (relocation/transfer costs), Other Operating (membership fees, hospitality, employee training, uniforms, conference/convention registration fees, incidental allowances), Imputed Surcharges.

Cost Element Group**Components**

Financial Assistance and
Related Costs

Consumables on Behalf of Citizens (Clothing, Food,
Drugs), Fees and Services, Shelter, Transportation, Special
Needs, Direct Assistance Payments, Indirect Assistance
Payments

Employee Benefits

Costs incurred by government for its contributions to the Employment Insurance Program, the Canada Pension Plan, the Group Life Insurance Plan and the Ambulance, Hospital Semi-Private Plan, as well as the payments made under the Dental Plan, the Long-Term Disability Plan and the Levy for Health & Post Secondary Education.

Estimates of Expenditure (Adjusted)

A re-alignment of the previous year's estimates of expenditure for any organizational change to provide for more accurate and realistic comparisons from one budget year to the next.

Full Time Equivalent

A measurement for number of positions. Every full-time regular position represents one full-time equivalent position. Other categories (e.g., term, departmental, sessional, contract) are measured in proportional equivalents, e.g., a program with a vote of 1.50 term FTE could hire staff in any combination that results in a total of 1½ years (or 78 weeks) of employment (e.g., 6 staff for 3 months (13 weeks) each; 2 staff for 9 months (39 weeks) each; 1 full time and 1 half time staff for 1 year; 3 half time staff for 1 year, etc.).

Staff Categories**Managerial**

Positions which have been delegated the authority and have the responsibility to plan, administer, and control the resources and activities of a defined organizational unit in the Manitoba Government, and are directly and fully accountable for:

- the utilization of resources in achieving planned objectives including the development of a budget and the initiation and authorization of expenditures; and,
- the organization's results and impacts.

Professional/Technical

Employees who have duties that relate to specific areas of program operations requiring some functional specialization.

Included in this category are employees classified within the following components and/or series:

Education	Engineers (O.P.E.E.P.M.)
Health	Legal Aid Lawyers (L.A.L.A.)
Legal, Inspection and Regulatory	Crown Attorneys (M.A.C.A.)
Physical Sciences	Doctors (M.M.A.)
Social Sciences	L.A.M.C. Staff
Trades, Operations and Services	Professional Officer Series
Personnel Officer Series	
Administration (with the exception of the Administrative Officer Series)	

NOTE: Those employees designated as managers and also classified within one of the above components or the excluded component shall be categorized only once, as managerial.

Administrative Support

Employees who have duties related to the provision of support and assistance to program operations.

Included in this category are employees classified within the clerical component or the Administrative Officer series.

Staff Turnover Allowance

An adjustment made to a salaries account to allow for attrition and staff turnover. It is a negative adjustment to enable the organization to more accurately display salary requirements.
